

# FIT & FLEX

## THE ADAPTABLE MULTITALENT

### **FLEXIBILITY BEYOND PLIABILITY: LANIFIT FOR YOUR REQUIREMENTS**

LANIFIT is a nonwoven fabric tailored to your applications. With its high adaptability and variability in application and form, it is a true multitasker.

Areas of application and functions:

- » acoustic absorber
- » carrier for coatings
- » individually configurable
- » for sealing / decoupling
- » optical and haptic performance

## OUR MISSION: ENVIRONMENTAL AWARENESS

Our focus is on waste reduction and CO<sup>2</sup> emissions:  
> 90 % of our fibers are PET.  
The majority of that PES fibers are recycled already.

This ensures purity of grades and contributes  
to the responsible use of resources.

## TECHNICAL TEXTILES ADAPT TO YOUR MULTIDIMENSIONAL NEEDS!

We provide highly functional products for the demands and requirements  
of your industry sector:

- » 3D-moldable nonwoven fabric
- » recyclable
- » acoustically effective
- » variable in application, coating, shape, and finishing
- » excellent availability and delivery performance
- » industry-wide standard portfolio
- » customized finishing
- » optional self-adhesive (kiss-cut on rolls)

LAMINATION WITH LOW EMISSIONS

WELDING

OPTIONAL FLAME RETARDANCY

SCREWING

SHAPING THROUGH V-CUTS

VELCRO

CUTTING AND PUNCHING PARTS
